## 5 REASONS TO OPEN YOUR NEW CAFE/RESTAURANT IN A SHIPPING CONTAINER

- 1, Its Mobile
- 2, Its Affordable
- 3, Its Quick
- 4, Its unique
- 5, Its eco-friendly

## BRANDED SHIPPING CONTAINER KITCHENS

Branding has become one of the most important things for a kitchen, especially a mobile kitchen. Good branding and visibility can make or break a shipping container kitchen.

## HIGH END COMMERCIAL EQUIPMENT

The kitchen is the lifeblood of your business and the quality of the equipment is something Northern Kitchens takes very seriously.

Our goal when building a shipping container kitchen is for it to have similar production output to a brick-and-mortar location.

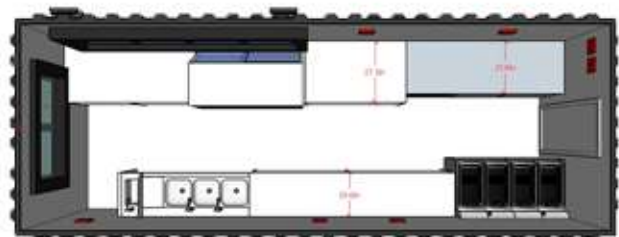

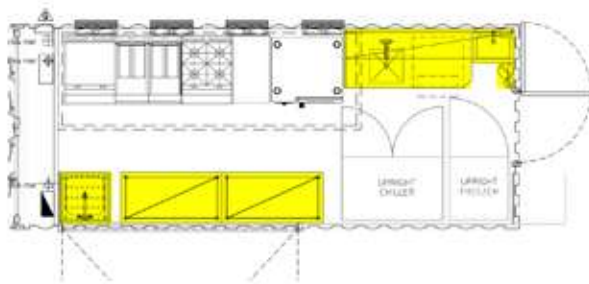

We only use commercial kitchen equipment from the most trusted brands.

## CONCEPT AND DESIGN

we offer full design services to assist you in envisioning and creating your perfect eating space.

Our designers can work with the designs you already have or develop a unique layout based on your specifications.

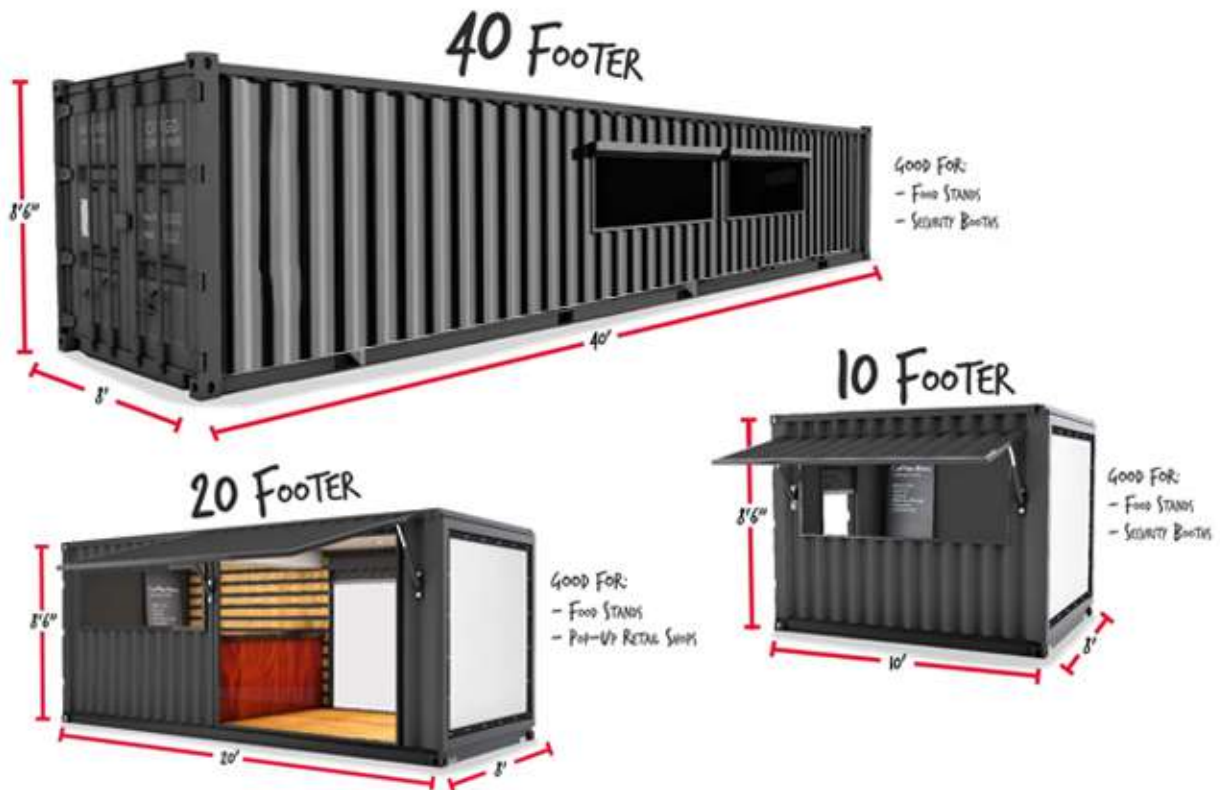

## SIZE WE OFFER

We offer the conversion of 10 feet, 20 feet and 40 feet standard shipping containers into customised restaurants, cafes, kitchens, etc.

You have the option to transform a single shipping container into a stylish bar, guided by our skilled designers. Alternatively, you can combine multiple containers to create a sought-after restaurant. Regardless of how large or small your shipping container conversion project is in the UAE, we're here to support you throughout the entire process.
